DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 25-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Upah (US 5,951,158).

Regarding claim 25, Upah discloses in figures 1-3, an earpiece light comprising of a curve ear support 12, attached to a power supply housing 16, having a power supply 30, a lamp arm 34, with a distal end 36, and the light emitted from a light source 26 is emitted in the distal end 36.

Regarding claim 26, Upah discloses in figure 3, the power supply housing 16 is detachable from the curve support.

Regarding claim 27, Upah discloses in figures 1-3 the lamp arm is extendible.

Double Patenting

Claims 25-29 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 3 and 12 of U.S. Patent No. 6,637,910. Although the conflicting claims are not identical, they are not patentably distinct from each other because See chart below.

Instant application	Prior art ('910)	Differences
25	1	Claim limitation is incorporated in claim 1 of the prior art.
26	1	Claim limitation is incorporated in claim 1 of the prior art.
27	3	Claim reads the same as the prior art.
28	1	Claim limitation is incorporated in claim 1 of the prior art.
29	12	Claim reads the same as the prior art.
